

STUBBERS ADVENTURE CENTRE

Residential dietary form – Schools & Groups

Group name:		Booking Reference	
Accommodation:		Residential start date:	Departure date:

Our Food and Beverage Team are committed to ensuring that food is not a barrier to attending a residential trip here at Stubbers, we have years of experience and training in catering to the diverse dietary needs of individuals.

All F&B staff have completed the Government Food Allergy Training module and hold a Level 2 Food Hygiene Qualification. Our kitchen and serving areas are Nut Free Zones, and our meat is either Halal or a suitable Halal substitute.

We have specific food preparation and serving methods for those who have severe allergies which could cause anaphylactic shock. On request we have diabetic and fat content menus, these have been calculated by our F& B manager and are to be used as a guide only, full responsibility is with the teacher or carer looking after the student for weighing and calculating the carbohydrates or fats for diabetic or CF adventurers.

Although we will try our very best to keep our residential customers free from contamination with the above protocols, we can not 100% guarantee this.

Please email this form to us one week prior to your visit, detail all necessary dietary information including but not limited to; Medical, Religious, Gluten free, Diabetic, Vegetarian, or Vegan requirements for everyone needing them including leaders.

When required a member of our F&B team will be in contact to clarify any dietary requirements to ensure adequate arrangements can be made.

- Please fill in the form below for **only the pupils and Leaders** that require a special dietary requirement while staying with us.
- Please tick this box if the **whole group** require a halal menu.
